August 2020

The ULI Center for Sustainability and Economic Performance is dedicated to creating healthy, resilient, and high-performance communities around the world.

Greenprint  Building Healthy Places  Urban Resilience

Connect with the World of Real Estate at ULI's Virtual Fall Meeting

October 13-15, 2020

The 2020 ULI Virtual Fall Meeting will be held online October 13-15, 2020. This engaging, highly interactive event brings together leaders from every sector of the real estate industry across the globe. Participants will have the opportunity to virtually tour groundbreaking projects, hear from world-renowned industry leaders as they share their insights on industry-wide topics, and engage in candid conversions with peers on topics ranging from capital markets and sustainability to social equity and the impacts of COVID-19. We are also excited to announce that Spencer Glendon, Ph.D., who spoke at last year's Resilience Summit, will headline a general session on climate change and sustainability. ULI's Center for Sustainability will be hosting several sessions including the 2020 Fall Coastal Forum, the Building Healthy Places Forum which will be taking place on Oct 7th, and our second annual Resilience Summit which will take place after ULI's Fall Meeting on December 2nd. We are also excited to announce that the center will be hosting several sustainability focused concurrent sessions including Beyond Amenity Status: Demand for Sustainability and Health in Multifamily Buildings, Where to Next? Climate Migration and the Cities and Neighborhoods of the Future, Tales of a Resilient City and Public Health and Real Estate: Scenarios for 2050. Additional sessions to be announced soon!
ULI Upcoming Events

Confronting COVID-19: Healthy Building Certification Updates
August 26, 2020
1:00-2:15pm ET

The leading healthy building certification systems – WELL and Fitwel – have created new certification tools to respond to the threat of the coronavirus and help developers and landlords ensure that they are providing the healthiest indoor and outdoor environments possible for residential, office and commercial buildings. In this webinar, learn about the WELL Health Safety Rating and the Fitwel Viral Response Module, and gain insights which can be applied to buildings in your portfolio, certified or not.

Creative Placemaking in the Time of COVID
September 2, 2020
1:00-2:15pm ET

Creative placemaking – defined by the Kresge Foundation as the process of deliberately integrating arts, culture and community-engaged design into comprehensive community development – can be a catalyst in creating more equitable and inclusive places. During the pandemic and the protests for racial justice, creative placemaking has emerged as a strategy to draw attention to injustice, elevate diverse voices, and create new opportunities for socially distanced community gathering and engagement. Join experts from across the United States and beyond to explore creative placemaking today and in the future.

ULI Building Healthy Places Book Club: Fall Title Kick-Off
September 3, 2020
4:00-5:15pm ET

The BHP Book Club explores topics related to health, equity, and real estate. Our next title is *The Address Book* by Deirdre Mask. The book takes readers on a global journey to discover what street addresses reveal about identity, race, wealth, and power. Reading and active discussion launch on September 3 with a live kick off event and conclude with an author talk on October 1st.

ULI Pittsburgh Sustainability Series, #1: Pittsburgh Is Going Green-What You Need to Know
September 10, 2020
1:00-2:00pm ET

Around the country, cities have been moving rapidly to adapt roads, parking lots, and other transportation assets to the needs of residents to travel, recreate, and support local business in safer and socially distant ways. From slow streets, to the use of parking facilities for drive-in movies, farmer’s markets, and children’s play zones, communities are taking a fresh look at existing transportation infrastructure. Join the conversation with experts from around the country to explore transportation, public space, and equity in the time of COVID-19.

Health, Social Equity, and Housing Webinar
September 21, 2020
12:00-1:00pm ET

The RPIC National Product Council is hosting a webinar to discuss innovative ideas for housing affordability, social equity and health. Speakers include Howard Epstein from the Arizona Housing Fund, as well as members of ULI Arizona’s District Council Task Force for Housing, Health and Equity to preview key findings from their year-long effort. Christopher Ptomey of the Terwilliger Housing Center for Housing will moderate.

Registration details to follow.

ULI Randall Lewis/Building Healthy Places Virtual Forum
October 7, 2020
1:00-2:15pm ET

The ULI Randall Lewis/Building Healthy Places Virtual Forum takes place on October 7, 2020. Richard Rothstein, author of The Color of Law, will set the stage for an agenda focused on housing, social equity, and gentrification through the lens of Bay Area speakers and projects. Additional panelists will be announced in the weeks ahead.

Confronting COVID-19: City Preparedness for Climate Events

Summer 2020 has already included unbearable heat waves in the southwest and east coast, and NOAA predicts an above normal hurricane season. As the summer climate season sets in, cities are more vulnerable to these destructive events than ever before due to the new realities of COVID-19 and related fiscal budget constraints, social distancing challenges and public health concerns. This webinar on August 5 hosted leaders in the fields of resilience and disaster preparedness to reflect upon how cities could be more prepared, resilient and equitable during this critical year and beyond.

Recording link available on ULI's Knowledge Finder site soon.
Virtual Advisory Services Panel – Dallas, Texas

In collaboration with the Advisory Services team, the Urban Resilience Program completed ULI’s second-ever virtual Advisory Services Panel (vASP) on August 12. Five experts convened virtually for 2.5 days and developed recommendations for an area of Northwest Dallas looking to integrate a mix of uses into an existing commercial-industrial area and grow into a vibrant, connected live-work neighborhood resilient to extreme heat and flooding. This vASP was the first panel of the Resilient Land Use Cohort (RLUC), a network of 8 member cities across the US that are addressing climate-related land use and development challenges through technical assistance and peer-to-peer learning. RLUC is managed by the Urban Resilience Program and supported by a grant from JPMorgan Chase.
